

The Remainder of the SDE Lecture

The next lecture appointments

- Text Processing 12.01.2023
- ML Text Application 19.01.2023

- Consultation 26.01.2023

We will answer your questions regarding the lecture contents.

There is a thread in the OPAL forum where we collect your questions, so we can prepare for the consultation. More questions are always possible.

Tentative Plan

- Time: 13.02.2023, 7:30
- Place: BAR/205/H; BAR/SCHÖ/E (maybe only the larger room if not that many attendants, please check the website!!!)
- Type: Written exam, 90min
mainly for CMS students, maybe also for other non-IT participants
if less than 10 students enroll for the written exam, we'll shift to oral exams
- Example: There is a test exam with some example question available online, on the OPAL page to provide some ideas how the exam questions might look like
- Relevant material:
Everything from lecture and exercise, except the time plan and the Graph lecture which was facultative
